

Allen Williams Memorial Final Field Determination

The first two horses finishing in each heat shall qualify for the final.

The remaining two placings shall be determined by the next highest placed horse in each heat (after the horses that have qualified by finishing first or second in any heat have been excluded) in the order of the fastest to the slowest mile rate for each heat.

For example – If none of the third placed horses qualify in a later heat the field would consist of the first two placegetters in each heat and the third placegetters in the heats with the fastest mile rates with the third in the heat with the next fastest mile rate being named emergency.
