CONTROLLER: RACING OPERATIONS MANAGER	OWNER: CEO	
REVIEWED: NOVEMBER 2020	SCHEDULED REVIEW: DECEMBER 2020	

1. **PURPOSE**

The Tasmanian government has a plan to ‘Rebuild a Stronger Tasmania’. As part of this plan, all workplaces are required to have a COVID-19 safety plan that complies with the minimum COVID-19 safety standards. The purpose of this Procedure is to outline the protocols that demonstrate our compliance with the *Minimum Standards (Work Health and Safety Amendment Regulations 2020)* and is a direction to those that enter the venue pursuant to Tasracing’s Conditions of Entry, which must be complied with.

The Procedure demonstrates our ability to protect Tasracing’s workers, racing industry participants, stewards, racing officials and the general public as we operate with new hygiene and safety protocols during the COVID-19 pandemic for the purpose of thoroughbred trial operations at the venue.

Tasracing is committed to providing a healthy and safe working environment and has identified alternative ways to deliver its racing operational practices to limit the spread of COVID-19. It is imperative that we comply with the safety standards outlined in this Procedure to safeguard racing in Tasmania.

The Australian Federal, State and Territory Governments have put restrictions in place to slow the spread of COVID-19. The National Cabinet have a 3-step plan to create a COVIDsafe society with new ways of living and working. This Procedure will be regularly reviewed and updated as these restrictions are varied and to reflect the recommendations by the Governments and Worksafe Tasmania.

Symptoms of COVID-19 include fever, coughing, sore throat and shortness of breath. If you have any of these symptoms **do not attend** your workplace, a trial session or the venue. You will be denied entry or removed from the venue if you display any of these symptoms.

3.3 **Protect others and stop the spread**

It is a requirement that you practice good hygiene, social distancing and understand when to self-isolate if you need to. These practices will slow down the spread of the virus.

Good hygiene

- use alcohol-based hand sanitisers when you can't use soap and water;

- increase the amount of fresh air by opening windows or utilising air conditioning.

Social distancing The more space between you and others, the harder it is for the virus to spread. Social distancing at the venue means you keep 1.5 metres away from others wherever possible and avoid physical greetings such as handshakes.

Self-isolate A person with COVID-19 or suspected to have the virus must enter mandatory isolation. You will need to isolate to prevent the spread of the virus to others at your home if it is suitable, hospital if you need hospital care or another location if needed as decided by the public health authority.
