- **Monday to Friday:** 0500hrs till 1100hrs **with last horse on track no later than 1045hrs**
- **Saturday:** 0530hrs till 1100hrs **with last horse on track no later than 1045hrs**
- **Race days:** As per race program with no construction works on race days
- **Trial days:** As per trials program with any construction to commence after the trials have been completed.
- **Bullring:** 0500hrs till 1000hrs with due care and responsibility of the trainer to maintain awareness and separation from the construction site.
- **Sand roll and pool:** Access and timings are unaffected with due care and responsibility of the trainer to maintain awareness and separation from the construction site.

All trainers, trackwork riders and other participant employees are to be aware that construction works will commence each day Monday to Friday (except for trials days) at 0700hrs.

There will be construction noise, vibration, dust, the use of hand tools in addition to vehicle and plant equipment movements at the construction site. Building materials may also be delivered and unloaded at the construction site during this time. The decision to train horses after 0700hrs rests completely with the trainer with all due care and attention to maintain awareness and control of each horse when interfacing with the construction site.

Tasracing will advise of unusual major construction activities such as cranes or concrete pours occurring to allow trainers to make alternative arrangements on those days. These activities may result in early track closures or complete track closures and will be communicated by Tasracing to trainers as early as possible.
