“There’s nothing like owning a racehorse.”

I like the racing side because every week there’s something to look forward to. You go to the races and it’s very exciting if you’ve got a horse that can win a race ... there’s nothing like owning a racehorse and the excitement of having a winner.

Graeme McCulloch
Trainer - Breeder

“...it’s why we race”

JORDAN EMBRACES THE SENIOR LIFE

Tasmania's most successful apprentice in recent decades has taken to life as a senior jockey like a duck to water.

Codi Jordan's time as an apprentice in Tasmania included the 2020/21 Apprentice Premiership in her first season riding, and that was immediately followed by the 2021/22 Senior Premiership, where she booted home 61 winners.

After a highly decorated apprenticeship under the care of her master Glenn Stevenson, Codi finished her career as an apprentice jockey in Launceston on 13 December, and true to form, she delivered a winner on the night, partnering the Stevenson-trained Stone Cold Stunner to victory in the Craig Hanson Memorial.

"I've very happy with everything I've achieved, and the support I've received has been amazing," said Codi Jordan after the win.

Six months into the 2023/24 racing season, Codi is firmly in the mix for a second Tasmanian Jockeys' Premiership, only trailing Anthony Darmanin by three wins at the end of January.

After stints in Victoria and South Australia across early 2023, Jordan returned to the state with her confidence a little shaken, but her performances during the Ladbroke's Summer Racing Festival show that the talented 26-year-old is back to her best.

Jordan partnered First Accused to feature race victories in the Newmarket Handicap and Tasmanian Stakes, and her frequent

trips to King Island saw her crowned the leading jockey of the King Island Racing season.

"I take each day as it comes, and now that I'm a senior rider, I'm really grateful for the opportunities I continue to get, particularly from Glenn (Stevenson).

"I committed to King Island for the season, which has been good fun, and it's putting winners on the premiership, which can always help."

The Jordan/Stevenson combination has proven to be lethal in 2023/24. 18 of Codi's 33 winners have come for the Stevenson stable, at a strike rate of 32.7%.

"Good old Jordo," smiled Glenn Stevenson after the Newmarket win of First Accused.

The way things have played out to start Codi's career as a senior rider in Tasmania, there are plenty more good times ahead.

"I TAKE EACH DAY AS IT COMES, AND NOW THAT I'M A SENIOR RIDER, I'M REALLY GRATEFUL FOR THE OPPORTUNITIES I CONTINUE TO GET."

GRENVILLE RISES TO THE TOP

Grenville Stud's meteoric rise continued at the 2024 Gold Coast Magic Millions Yearling Sale, where they were the leading vendor by average sale price, for those that sold three or more horses.

The father and son combination of Graeme and Bart McCulloch ventured north with a team of three and left with an average purchase price of \$578,333, headlined by a Wootton Bassett colt out of Tiare, who sold to Coolmore Australia for \$900,000.

The purchase created history as the most expensive yearling to be produced out of Tasmania.

Crowned last season's Tasmanian Broodmare of the Year, Tiare has shot to national prominence as the mother of Everest winner Think About It, who has banked almost \$12 million in career prize money.

The sale of Think About Its half-brother was an enormous moment for the Grenville team.

"\$900,000 is just amazing, it's life-changing," said an emotional Bart McCulloch after the hammer went down on the sale.

"We're lucky we had a horse like this. I'm glad Coolmore got him, he'll have every chance there, and hopefully, he does well on the track, and they stand him at stud," Graeme McCulloch said.

Not to be overshadowed, Grenville also took to the Gold Coast an Exceed & Excel – Galway Girl filly, who was touted as one of the top females at the sale.

True to the spruik, the filly fetched \$675,000, sold to Group 1 winning trainer, Peter Moody.

"She was my pick of the sale," said Moody.

"Full credit to Grenville, they've done a hell of a job to travel the team that far and present them in such great order."

The success of Grenville Stud at Australia's biggest Yearling Sale is sure to have an impact at the 2024 Tasmanian Magic Millions Sale, where they have a total of 28 yearlings in the catalogue.

"FULL CREDIT TO GRENVILLE, THEY'VE DONE A HELL OF A JOB TO TRAVEL THE TEAM THAT FAR AND PRESENT THEM IN SUCH GREAT ORDER."

ARNIE PRODUCING MAGIC OFF THE TRACK

Eight-year-old gelding Gee Gees Magic Man (Arnie) is saving his best tricks for retirement.

The son of Wordsmith and Ariella is now in the care of Off the Track Coach Sue McDermott, having run his final race in September of 2022 following a 40-start career for trainer Stuart Gandy.

Sue made an enquiry to Gandy looking for a retired horse for her daughter Sophie, and the transition has worked seamlessly.

"Stu said he had one who's a really nice horse; he's got a lovely nature, and that was Arnie," Sue McDermott said.

"12 MONTHS HAVE GONE BY, AND SINCE THAT TIME, HE'S BEEN ABLE TO TAKE ADVANTAGE OF THE TASRACING OFF-THE-TRACK COACHING VOUCHER PROGRAM."

Dr Martin Lenz, head of Tasracing's Racing Animal Welfare team, explains: "This program provides 10 free coaching lessons with one of Tasracing-acknowledged coaches, which is available to all recently retired OTT horses. The coaching program utilises qualified equestrian coaches to assess both the

horse and rider's capabilities and provide expert coaching to cement the horse-and-rider working relationship in their newly chosen discipline, thus getting both horse and rider off to the perfect start."

"It didn't take us long to see that we've got quite a nice horse," said Sue McDermott.

A four-time winner in his racing career, Arnie has been a complete natural in his first two competition appearances, living up to the reputation that Sue and Sophie received from his former trainer.

"He's had two outings; the first was to a dressage competition about a month ago, where he came second in a pretty reasonable field of experienced horses.

"Then last weekend (28 Jan), he did the Tasmanian state Horse of the Year Championships. He went in as a Newcomer Hunter Hack (horse in its first year of competition) and won the Champion Newcomer."

"He was everything that Stuart (Gandy) said he is."

An accredited Equestrian Australia level 2 dressage specialist coach, Sue says there are some important steps when transitioning a racehorse to the next stage of their life.

"It's important to understand that the horses are going from one job they've

done since they were 18 months old until they leave the track.

"So, to take them out of their racing environment, which is family-focused with staff and people looking after them and a routine, you need to try and replicate that.

"We have a really strict routine here, we feed up of a morning and night, the farrier, everything is done similar to racing but a different discipline.

Arnie has certainly embraced his new discipline and is a real success story for the Off the Track program.

"He really loves his life; the more attention he gets he just loves it."

RACING INFORMATION

TRACK RATING SCALE

For the latest track rating information and penetrometer readings visit: racingaustralia.com.au.

SCALE	CATEGORY	DESCRIPTION
1	Firm	Dry hard track
2	Firm	Firm track with reasonable grass coverage
3	Good	Track with good grass coverage & cushion
4	Good	Track with some give in it
5	Soft	Track with a reasonable amount of give in it
6	Soft	Moist but not a badly affected track
7	Soft	More rain affected track that will chop out
8	Heavy	Rain affected track that horses will get into
9	Heavy	Wet track getting into a squelchy area
10	Heavy	Heaviest category track very wet towards saturation

HOBART RACECOURSE

Hobart Racecourse is located just 12 minutes from the Hobart CBD and 23 km west of the Hobart Airport. It is a unique venue combining both modern facilities with a sense of history as you overlook Hobart's historic racecourse, the Derwent River, Mount Wellington and the skyline foothills. On site parking offers plenty of free accessible parking.

THE TRACK

The Elwick Track in Hobart showcases one of Tasmania's home-grown exports, 'StrathAyr' turf which is highly respected for its durability and consistency. The 28-metre-wide grass track has been in place since 2020 and is home to some of the state's biggest races.

Direction	Anti-clockwise
Circumference	1950m
Straight	320m
Track Width	Approx. 28m
Surface	Turf - Strathayr

1. In the event of a rail having to be moved or for any other safety reason, the Chairman of Stewards may re-assess the field limits accordingly.
2. Field limits for all 2YO events programmed between the first day of the current racing season (1 August) and the last day of the calendar year (31 Dec) inclusive, will be reduced by two (2) runners (Excluding 1000 meter starts).

Note When the movable rail is not in the true position, Tasracing may opt to run races at approximate distances. This will permit the barrier stalls to be placed at the farthest distance for turns. In such cases, field limits may be reassessed by Stewards.

JUMP OUTS

Available post official trials. Nominations to be made through Racing Australia and will close at 9am on the day prior unless otherwise advertised. Unnamed horses must be nominated by contacting Tasracing.

GRASS GALLOPS

Availability as determined by the Racecourse Manager. Trainers will be notified of availability in advance via text message. Requests must be made to Tasracing by 4pm on the preceding day.

LAUNCESTON RACECOURSE

The Launceston racecourse is located approximately 3 kilometres from the heart of Launceston City in Jellico Street, Mowbray. Launceston is the second largest city in Tasmania and is an ideal base from which to experience essential Tasmanian historic villages, national trust properties, wilderness, arts, markets, national parks, breath-taking scenery and internationally acclaimed food and wine grown in a clean, unspoilt environment. Launceston is a thriving City with accommodation of an international standard.

THE TRACK

The Launceston racecourse surface showcases one of Tasmania's home grown exports, 'Strathayr' turf which is highly respected for its durability and consistency.

LONGFORD GRASS GALLOPS

Available Monday, Tuesday and Friday pending availability.

DEVONPORT RACECOURSE

The Devonport Racing Club is situated only 9 minutes from the centre of Devonport and only 14 minutes from the Spirit of Tasmania's dock. The DRC offers free parking, on course betting facilities, a bar and bistro and an upstairs function centre enjoying panoramic views of the track. The bar is open throughout the week, providing members and guests with a great place to meet and enjoy live racing from around Australia and the world on Sky Channel.

THE TRACK

The Devonport racecourse features an all-weather, synthetic surface with no demonstrated track bias, allowing winners from all positions in running and critically facilitates performance consistent with exposed form.

Direction	Anti-clockwise
Circumference	1459m
Straight	305m
Track Width	Approx. 18m
Surface	Synthetic-Tapeta

- Both options are subject to a veterinary certificate being supplied not later than 5pm on the fifth business day following the day of the running of the race from which the horse was withdrawn. E.g. Friday following a Sunday meeting.
- Both options are subject to a veterinary certificate being supplied not later than 5pm on the fifth business day following the day of the running of the race from which the horse was withdrawn. E.g. Friday following a Sunday meeting.

SET WEIGHTS SCALE

LOCAL RULE - 9 WEIGHTS PENALTIES AND ALLOWANCES

- 9.1 In all handicap events, unless otherwise specified, the minimum handicap weight shall be NO LESS THAN 54kgs. The Handicapper may, at his discretion, take into account the 2.0kg filly and mare allowance except where it reduces the minimum weight beyond 54kgs. (amdt effective 1/1/2015)
- 9.2 Rescinded
- 9.3 Set Weight Maiden Scales
- 9.4 Prior to the declaration of Acceptance the Handicapper may adjust the weight of any horse whose weight as published was incorrect:
- (a) because of a clerical error; or
 - (b) because of an error or misunderstanding on the Handicapper's part as to the status, age or sex of the horse.

RBH TEMPLATE

TASMANIAN RATINGS BASED TEMPLATE

Instructions Follow the line across from the rating to find the weight a horse would carry in the various race-type columns.

Fillies/Mares When fillies and mares race against male horses they shall receive a 2.0kg weight allowance.

3yo's When 3YO horses race against older horses they shall receive a weight allowance which is a sliding scale that varies from 2.5kg in August to nil by the end of the season. In open races they shall receive a weight allowance at the handicapper's discretion. Some Victorian race columns have been included to provide a guide to the weights a horse might expect to receive in these events.

Unraced horses rated 59 are eligible to compete in Benchmark 62.

AMENDMENTS TO AUSTRALIAN RULES OF RACING

EFFECTIVE 1 FEBRUARY 2024

AR 88C BLISTERING

Summary:

At the February 2023 COSC meeting a Paper / Submission which was received from VAAG was considered relating specifically to Prohibited Practices and Eligibility to Race including Blistering.

Blistering:

"Blistering" is defined as the application of a substance to cause blistering (vesiculation) and inflammation of the skin and underlying tissues. Like firing, it causes a counter-irritant effect, producing an acute inflammatory process in musculoskeletal conditions where there is chronic or subacute inflammation. The rationale being that the increased irritation and inflammation caused by the blistering will result in more rapid healing once the acute inflammation subsides.

Like firing, the most beneficial aspect of blistering is the enforced rest that is required to recover from the pain due to the acute tissue injury caused by the procedure and is essentially considered an ineffective method of therapy.

Period of Ineligibility:

VAAG also sought COSC's opinion as to whether the ineligibility attached to a breach of the Blistering Practice should be more limited rather than be for "life".

It has been suggested and supported that the minimum period of ineligibility should

be for a period of 12 months, and that this provision should apply to this practice.

COSC unanimously agreed to support the definition of blistering for inclusion in AR 2 and a new rule to formalise a period of ineligibility of 12 months to participate in any race, trial, jump out or track work.

Racing Australia has introduced an amendment to AR 2 and AR 88C to give effect to this.

1. ADD TO AR 2 AS FOLLOWS:

AR 2 Dictionary

Blistering means the application of a substance to cause blistering (vesiculation) and inflammation of the skin and underlying tissues

Date of Effect: 1 February 2024

2. AMEND AR 88C AS FOLLOWS:

AR 88C Horses that have had blistering procedure

- (1) If a horse has been subjected to a blistering procedure in Australia:
 - (a) the horse is ineligible for a minimum period of 12 months; and
 - (b) a person must not enter or start the horse in, any race, official trial, jump-out or trackwork.
- (2) If a horse is subject to a blistering procedure, the owner of the horse or

that owner's authorised agent must provide written notification of that to the Stewards as soon as practicable. The Stewards will then seek to ensure that:

- (a) details of the procedure and the horse's ineligibility to race are recorded in Racing Australia's national online database; and
- (b) if applicable, the Thoroughbred Identification Card of the horse is endorsed with details of the procedure and the horse's ineligibility to race.

Date of Effect: 1 February 2024

AR 88D CHEMICAL CASTRATION OR IMMUNOCASTRATION

Summary:

A Paper / Submission was sent to COSC from VAAG for consideration relating specifically to Prohibited Practices and Eligibility to Race including Chemical Castration or Immunocastration.

Chemical Castration or Immunocastration:

VAAG is concerned about the potential abuse of the practice of "chemical castration" to temporarily modify the behaviour of an entire male horse, principally to reversibly suppress the overt expression of stallion-like aggressive behaviour, and therefore render the animal a temporary gelding.

Chemical castration can be achieved by pharmacological means, usually the administration of progestogens, or by immunological means by the administration of anti-GnRH vaccine. However, there is a technical distinction between these two methods, and therefore both the terms "chemical

castration" and "immunocastration" need to be specified.

Period of Ineligibility:

VAAG also sought COSC's opinion as to whether the ineligibility attached to a breach of the chemical castration and immunocastration should be more limited rather than be for "life".

It has been suggested and supported that the minimum period of ineligibility should be for a period of 12 months, and that this provision should apply to this practice.

COSC unanimously agreed to support a new rule to formalise a period of ineligibility of 12 months to participate in any race, trial, jump out or track work.

Racing Australia has introduced AR 88D to give effect to this recommendation.

1. ADD TO AR 88D AS FOLLOWS:

AR 88D Horses that have had chemical castration or immunocastration.

- (1) If a horse has been subjected to a chemical castration or immunocastration procedure in Australia:
 - (a) the horse is ineligible for a minimum period of 12 months; and
 - (b) a person must not enter or start the horse in, any race, official trial, jump-out or trackwork.
- (2) If a horse is subject to a chemical castration or immunocastration, the owner of the horse or that owner's authorised agent must provide written notification of that to the Stewards as soon as practicable. The Stewards will then seek to ensure that:
 - (a) details of the procedure and the horse's ineligibility to race are recorded

in Racing Australia's national online database; and

- (b) if applicable, the Thoroughbred Identification Card of the horse is endorsed with details of the procedure and the horse's ineligibility to race.

Date of Effect: 1 February 2024

AR 186 BAN PRACTICE OF IMBEDDED LEAD / WEIGHT IN RACE RIDING BOOTS AND OTHER EQUIPMENT WORN BY RIDER

Summary:

Racing NSW recently experienced an incident whereby a horse was disqualified due to the rider weighing in light. It was found to be caused by the apprentice rider using riding boots with lead embedded and which weighed collectively around 1.5kg.

Racing NSW asked COSC to discuss and consider the matter and requested COSC to consider banning the practice of having riding boots with imbedded lead under the provisions of AR186.

It was noted that AR186 already specifies, by extension, that lead cannot be placed/secured in riding boots by virtue of the fact that subrule (2) requires that all lead or other weight must be carried in the saddle or lead bag pouches.

Notwithstanding the above, COSC is of the view that the rule should be clarified to specifically prohibit lead or other weight being imbedded, placed or carried in a rider's riding boots, and for that matter any other gear used by a rider.

The creation and addition of subrule 3 to AR186 was supported by COSC.

- (3) Further to, and without affecting the provisions of subrules (1) and (2) of

this rule, no lead or other weight used by a rider when weighing out will be permitted to be;

- (i) imbedded or carried in a rider's race riding boots,
- (ii) placed or carried in any other part of a rider's equipment and/or gear,
- (iii) carried by a rider in any manner other than in the manner allowed under subrules (1) & (2) of this rule.

1. AMEND AR 186 AS FOLLOWS:

AR186 Securing lead or other weights

- (1) Every rider must secure any lead or other weight in the rider's lead bag or saddle pouch when weighing-out.
- (2) All lead or other weight must be carried in the saddle or lead bag pouches and must be securely fastened. (3) Further to, and without affecting the provisions of subrules (1) and (2) of this rule, no lead or other weight used by a rider when weighing out will be permitted to be;
 - (i) imbedded or carried in a rider's race riding boots,
 - (ii) placed or carried in any other part of a rider's equipment and/or gear,
 - (iii) carried by a rider in any manner other than in the manner allowed under subrules (1) & (2) of this rule.

Date of Effect: 1 February 2024

AR248, AR2, AR17, AR286, AR253 SELECTIVE ANDROGEN RECEPTOR MODULATORS (SARMS)

Summary:

Interest in Selective Androgen Receptor Modulators (SARMS) for human clinical purposes has increased following in vitro and in vivo studies showing these compounds to be effective anabolic agonists, without side-effects often associated with anabolic-androgenic steroids. Consequently these compounds are prohibited by the World Anti-Doping Agency (WADA) and the International Federation of Horseracing Authorities (IFHA). Andarine (S-4), an arylpropionamide derived compound [S-3-(4-acetylamino-phenoxy)-2-hydroxy-2-methyl-N-(4-nitro-3-trifluoromethyl-phenyl)-propionamide], was the lead compound in this class. Literature reports of andarine (S-4) detection first described a black-market product analysed by the Cologne anti-doping laboratory in 2009, followed by two adverse analytical findings in human sports doping control urine samples analysed by the Lausanne and Los Angeles anti-doping laboratories in 2011 and 2013, respectively.

In 2014, the first findings of andarine (S-4) in equine sports were made in Australian thoroughbred racing samples. During the subsequent Stewards inquiries, the trainer and veterinarian involved in these matters placed considerable emphasis on andarine (S-4) not being classified as an anabolic-androgenic steroid.

The timing of the cases was conspicuous, being less than one year after the prohibition of anabolic-androgenic steroids at all times in racing (former AR178H) was introduced on 1 November 2013. Fortunately, there have been no

further findings of SARMS in Australian thoroughbred racing.

The number of different SARMS being investigated for legitimate human clinical use has expanded over recent years. Unfortunately, this has resulted in greater availability of non-approved compounds via illicit markets with more than 20 SARM compounds now posing a threat to the integrity of sport. One example is LGD-4033, also known as Ligandrol, which has been the subject of a number of findings in human sports in Australia and internationally.

Australian racing laboratories have the capability to screen for the presence of a growing number of SARMS, subject to the availability of reference materials, at low levels in routine equine plasma and urine samples. Work is also underway to investigate the potential of detection in equine hair samples, which may increase the retrospectivity (i.e. detection period) in controlling misuse of these substances.

Notwithstanding the continuous evolution in monitoring for the presence of SARMS, the persistent threat of SARM misuse necessitates a review the Rules of Racing, specifically AR 248 Administration of anabolic androgenic steroids, to ensure that the principle to control the long-term effects of anabolic substances is applied to SARMS.

Racing Australia has introduced a number of changes to AR 248 along with consequential changes to AR 2, AR 17, AR 253 and AR 286 as a result of this review.

Further, Australian racing laboratories have the capability to issue a “clearing certificate” in respect of SARMS, and that reference to same in the relevant sub rules would be appropriate.

1. AMEND AR 248 AS FOLLOWS:

AR 248 Administration of anabolic androgenic steroids and selective androgen receptor modulators

- (1) A person must not:
 - (a) administer;
 - (b) cause to be administered;
 - (c) attempt to administer; or
 - (d) be a party to the administration or attempted administration of, an anabolic androgenic steroid and/or selective androgen receptor modulator to a horse.
- (2) If a person breaches subrule (1), a disqualification for a period of not less than 2 years must be imposed, unless there is a finding that a special circumstance exists, in which case that penalty may be reduced.
- (3) If the Stewards are satisfied that a horse has been, or is likely to have been, administered an anabolic androgenic steroid and/or selective androgen receptor modulator, the Stewards may prevent the horse from starting in any race, official trial or jump-out.
- (4) If a sample taken at any time from a horse has detected in it an anabolic androgenic steroid and/or selective androgen receptor modulator, the horse is not permitted to start in any race, official trial or jump-out:
 - (a) for a period of not less than 12 months from the date of the collection of the sample; and
 - (b) until after an Anabolic Androgenic Steroid Clearing Certificate and/or selective androgen receptor modulator Clearing Certificate, as the case may be, is provided in respect of a sample taken from the horse on a

date directed by a PRA or the Stewards.

- (5) An owner, lessee, nominator, trainer and/or other person in charge of a horse must not, when directed by the Stewards or another official employed or engaged by a PRA, fail to produce or otherwise give full access to the horse so that a sample can be taken and analysed to determine whether any anabolic androgenic steroid and/or selective androgen receptor modulator is in the system of the horse.
- (6) Subrule (5) requires an owner, lessee, nominator, trainer or other person in charge of a horse to produce the horse, or otherwise give full access to the horse, even if the horse is:
 - (a) under the care or control of another person; and/or
 - (b) located at the property of another person.
- (7) If an owner, lessee, nominator, trainer and/or other person in charge of a horse breaches subrule (5), the horse will not be permitted to start in any race, official trial or jump-out:
 - (a) for a period of not less than 12 months following the day that the horse is produced or made fully accessible to the Stewards or another official employed or engaged by a PRA, so that a sample can be taken and analysed to determine whether any anabolic androgenic steroid and/or selective androgen receptor modulator is in the system of the horse; and
 - (b) until after an Anabolic Androgenic Steroid Clearing Certificate and/or selective androgen receptor modulator Clearing Certificate, as the case may be, is provided in respect of a sample taken from the horse on a date directed by a PRA or the Stewards.

Date of Effect: 1 February 2024

2. ADD TO AR 2 AS FOLLOWS:**AR 2 Dictionary**

Selective Androgen Receptor Modulator Clearing Certificate means a certificate from an Official Racing Laboratory stating that a sample (taken under the supervision of the Stewards or another official employed or engaged by a PRA to do so) is free of selective androgen receptor modulators.

Date of Effect: 1 February 2024

3. AMEND AR 17 AS FOLLOWS:**AR 17 Taking samples at horse sales**

Without limiting any other PRA powers, a PRA has the following powers in respect of taking samples at horse sales:

- (a) if, in the opinion of a PRA, a thoroughbred horse selling agent or organisation has in place satisfactory arrangements (including as between a buyer and seller of a horse) for taking samples from horses at horse sales for the purpose of testing for anabolic androgenic steroids and/or selective androgen receptor modulators, to officially approve as a "PRA-approved vet" (which approval can be withdrawn at the discretion of a PRA) a veterinary surgeon employed, engaged or authorised by the selling agent or organisation, to take a sample from a horse for that purpose; and
- (b) to declare either before or after a sample is taken by a PRA-approved vet under subrule (a) that the sample is to be treated as a sample for the purpose of these Australian Rules.

Date of Effect: 1 February 2024

4. AMEND AR 286 AS FOLLOWS:**AR 286 Lodgement of Foal Ownership Declaration**

- (3) It is a condition precedent to any lodgement under this rule that the manager or his or her authorised agent lodging the Foal Ownership Declaration undertakes to be bound by the Rules and, upon action being taken in compliance with this rule (including by a Syndicate as applicable), the unnamed horse and its owners become subject to, and agree to be bound by, the Rules for the following purposes only as a consequence of, and relating to, the lodgement of the Foal Ownership Declaration:

- a. the testing of a named horse which has not been retired from racing under AR 297 for the presence of substances that are prohibited at any time by the Rules;
- b. the testing of an unnamed horse for the presence of anabolic androgenic steroids, and/or selective androgen receptor modulators;
- c. the observation of other horses for health and welfare reasons only where there is concern for their health and welfare based on reasonable grounds; and
- d. the rules that relate to traceability (any rule under this Part 14 and any relevant Local Rules).

Date of effect: 1 February 2024

5. AMEND AR 253 AS FOLLOWS:**AR 253 Testing for anabolic androgenic steroids and/or selective androgen receptor modulators before registration**

- (1) This rule applies to all unnamed horses.
- (2) The Stewards or another official

employed or engaged by a PRA may, at any time, direct that a horse be produced to provide a sample to be analysed to determine whether any anabolic androgenic steroid and/or a selective androgen receptor modulator is present in the system of the horse.

- (3) If a horse is not produced to provide a sample as directed under subrule (2), that horse is ineligible to start in any race or official trial:
- (a) until at least 12 months after the latter of:
 - (i) the date on which the horse, once registered with Racing Australia under these Australian Rules, is permitted under these Australian Rules to start in a race (and subject to any further conditions imposed by a PRA or the Stewards in their discretion); and
 - (ii) the date on which the horse is produced to provide a sample to be analysed to determine whether any anabolic androgenic steroid and/or a selective androgen receptor modulator is present in the system of the horse; and
- (b) only after an Anabolic Androgenic Steroid Clearing Certificate and/or a Selective Androgen Receptor Modulator Clearing Certificate, as the case may be, is provided in respect of a sample taken from the horse on a date directed by a PRA or the Stewards.
- (4) If an anabolic androgenic steroid (other than an anabolic androgenic steroid at or below a permitted threshold identified in Schedule 1, Part 1, Division 3) and/or a selective androgen receptor modulator is detected in a sample taken at any time from a horse, the

horse is ineligible to start in any race, official trial or jump-out:

- (a) until at least 12 months after the latter of:
 - (i) the date on which the horse, once registered with Racing Australia pursuant to these Australian Rules, is permitted under these Australian Rules to start in a race (and subject to any further conditions imposed by the Stewards in their discretion); and
 - (ii) the date the relevant sample was taken; and
- (b) only after an Anabolic Androgenic Steroid Clearing Certificate and/or a Selective Androgen Receptor Modulator Clearing Certificate, as the case may be, is provided in respect of a sample taken from the horse on a date directed by a PRA or the Stewards.
- (5) If directed under subrule (2) by the Stewards or another official employed or engaged by a PRA, a person must produce, or otherwise give full access to a horse so that a sample may be taken and analysed to determine whether any anabolic androgenic steroid and/or a selective androgen receptor modulator is in the system of the horse.
- (6) Subrule (5) requires an owner, lessee, nominator and/or trainer to produce a horse, or otherwise give full access to a horse, even if the horse is:
 - (a) under the care or control of another person; and/or
 - (b) located at the property of another person.

Date of Effect: 1 February 2024

AR 123 AND NATIONAL EQUIPMENT REGISTER INCLUSION – VIPA III SAFETY VEST

Summary:

A VIPA III Safety Vest (manufactured and supplied by Vipatech) was submitted for testing by Human Impact Engineering. An application was submitted for consideration to be approved and included in AR123 and the Racing Australia National Equipment Register.

It is noted that the Test reports provided (2019 – VT19-008) & (2022 – VT22-001) confirm that the VIPA III Safety Vest submitted for consideration conforms to the EN 13158:2018 Level 3 Standard. European Standard EN 13158 is one of two Standards prescribed by RA in AR 123.

COSC considered the application and unanimously supported that the VIPA III Safety Vest be included as an approved safety vest in the rules of racing and also be included in the National Equipment Register.

Addition to National Equipment Register

The VIPA III Safety vest is an approved safety vest under AR123 and in the National Equipment Register.

AMEND AR 123 AND ADD TO NATIONAL EQUIPMENT REGISTER AS FOLLOWS:

In AR123, the Note immediately following sub rule (6) is updated to reflect the addition of a section (d) which should read:

- (d) the following Level 3 safety vests are approved:
 - (i) VipA III

Date of Effect: 1 February 2024

NATIONAL EQUIPMENT REGISTER INCLUSION – STEP STIRRUP IRONS (STAINLESS STEEL)

Summary:

A request was received to consider the approval of a set of stirrup irons on behalf of a Japanese Manufacturer. Two (2) types of stirrups were submitted for consideration, a stainless steel version and an aluminium version.

Both sets of irons were subject to load testing, with the aluminium version breaking at a much lower load level.

COSC considered the application for the STEP stirrup irons (Stainless Steel & Aluminium) to be included in the RA National Equipment Register. COSC unanimously supported the Stainless Steel version based on a Test report verifying breaking strain and the fact that the stated breaking strain was sufficiently high. COSC was unanimous in not supporting the Aluminium version based on a number of considerations.

ADDITION TO NATIONAL EQUIPMENT REGISTER

Racing Australia has approved the inclusion of the Stainless Steel STEP stirrup iron in the National Equipment Register along with the inclusion of an image in the National Equipment Register.

Date of Effect: 1 February 2024

SCHEDULE 1 PROHIBITED SUBSTANCES LISTS & EXEMPTIONS/THRESHOLDS

INCLUSION OF CANNABINOIDS IN PROHIBITED LIST

Summary:

Cannabinoids have always been substances banned at all times under the rules of racing by their inclusion as a Schedule 9 substance.

To date there has been no threshold or screening limit applied and there have not been any historical concerns or issues with this approach.

A new cannabidiol substance, trade name Epidyolex has been approved by the TGA in November 2020 in Australia as a Schedule 4 drug for prescription by doctors to patients.

This event has created a loophole where now not all cannabinoids are considered to be substances banned at all times in racing horses, as now not all cannabinoids are technically Schedule 9 substances.

It is VAAG's contention that to close this loophole it is necessary to also include "cannabinoids" in Prohibited List A as a discretely named substance.

VAAG is not aware of any scientific reason to support a 30ng/mL screening limit for cannabinoids under current Australian housing and feeding conditions.

VAAG will keep a watching brief on any significant international developments and any matter of a screening limit can be addressed in the future if things change

COSC has considered this position and fully support the proposed addition of Cannabinoids to Prohibited List A.

Racing Australia has introduced an update for Prohibited List A to include Cannabinoids.

1. AMEND SCHEDULE 1 PROHIBITED SUBSTANCES LISTS & EXEMPTIONS/ THRESHOLDS AS FOLLOWS:

PART 1 SUBSTANCES PROHIBITED AT ALL TIMES

Division 1 – Prohibited List A

The substances set out below in this Division 1 are specified as prohibited substances.

...

24. Substances listed in Schedule 8 and Schedule 9 of the Standard for the Uniform Scheduling of Medicines and Poisons contained in the Australian Poisons Standard.

25. Cannabinoids.

26. Metabolites, artefacts and isomers of any of the substances identified in this list.

Date of Effect: 1 February 2024

AR 79 BLEEDER RULE

Summary:

Under the current version of AR79, a horse cannot be trained, exercised or galloped on a racecourse after having a first attack of bleeding (blood in both nostrils) however, this does not exclude or prohibit a horse from being trained, exercised or galloped at other locations such as a private pre-training property, recognised training track, beach or other place.

The Veterinary and Analytical Advisory Group (VAAG) advised as follows in relation to horses returning from an attack of bleeding:

- In respect of AR79 (4)(a), the purpose of the current rule is to enforce a period of rest following an episode of bleeding and encourage trainers to spell a horse that has bled. While low intensity exercise is generally acceptable before the end of the 2 month prohibition, there is overall benefit for the horse to be spelled for 2 months.
- In respect of AR79 (4)(b), horses should be permitted to trial – instead of only a 1,000m gallop, before returning to racing following a bleeding attack.

In light of VAAG's advice regarding AR79 (4)(a), the Chairmen of Stewards Committee's (COSC) view is that a horse should not be ridden in any exercise for 2 months following bleeding regardless of where that exercise occurs. COSC felt that it would be too difficult to define "low intensity exercise" and, in the interests of horse welfare and rider safety, a blanket ban was the most appropriate position."

Racing Australia has introduced amendments to AR79 (4) (a) to give effect to this.

Please note that the structure of AR 79 (4) (b) was modified for clarity. There has been no change to the wording. The change to structure is set out below in blue.

AMEND AR 79 AS FOLLOWS:

AR79 – Horses with bleeding

- (4) A horse which, in the opinion of the Stewards, has had an attack of bleeding;
 - (a) for a period of 2 months after the attack of bleeding, must not, without the permission of the Stewards, be trained, exercised or galloped on a racecourse, recognised training track, private training establishment, or other place;
 - (b) must not start in any race for a period of 3 months, and then only after:
 - (i) a gallop of at least 1,000 metres; or
 - (ii) an official trial or jump-out;
- in the presence, and to the satisfaction of a Steward.

Date of Effect: 1 February 2024

SCREENING LIMITS FOR THE PURPOSE OF AR 257 DEXAMETHASONE

Summary:

Racing Australia (RA) is a member of the Asian Racing Federation (ARF). The ARF wrote to RA seeking RA's commitment to adopt a recently approved Asian Screening Limit (ASL) for Dexamethasone in plasma.

Dexamethasone is used in horses as an anti-inflammatory corticosteroid muscle relaxant.

The ARF approved the following ASL for

controlling Dexamethasone (an anti-inflammatory corticosteroid) in plasma:

Dexamethasone: 0.02 ng/mL in plasma.

VAAG has endorsed the proposed ASL and COSC has unanimously supported this endorsement.

Racing Australia has adopted the Asian Screening Limit for Dexamethasone – 0.02 ng/mL in plasma for addition to Racing Australia's list of Screening Limits.

Date of Effect: 1 February 2024

SCREENING LIMITS FOR THE PURPOSE OF AR 257 PROCAINE

Summary:

Racing Australia (RA) is a member of the Asian Racing Federation (ARF). Following the adoption by the Asian Racing Federation (ARF) of an Asian Screening Limit (ASL) in respect of Procaine (20 ng/mL) – in urine, VAAG was requested to provide opinion on screening limits pertaining to Procaine.

VAAG has considered the request and made the following recommendation to adopt the below screening limits for Procaine.

1. International Screening Limit (ISL) for Procaine in plasma at 0.02 ng/mL
2. Asian Screening Limit (ASL) for Procaine in urine at 20 ng/mL

COSC has endorsed this recommendation.

Racing Australia has adopted the

1. International Screening Limit (ISL) for Procaine in plasma at 0.02 ng/mL, and
2. the Asian Screening Limit (ASL) for Procaine in urine at 20 ng/mL

for addition to Racing Australia's list of Screening Limits.

Date of Effect: 1 February 2024

ALISTAIR BETT

INDUSTRY WELLBEING & SUPPORT

Tasracing continues to offer its Employee Assistance Program (EAP) through Positive Solutions, a Tasmanian owned and operated psychology, counselling and mediation provider. The local team at Positive Solutions are ready to welcome Tasracing staff and racing industry participants.

Employees and their immediate family are encouraged to utilise the confidential and free service for up to three (3) counselling sessions per calendar year, or more as approved on a case by case basis. Racing industry participants can access the program for up to two (2) counselling sessions each calendar year. Tasracing has 24/7 access to the EAP, which provides greater flexibility and access to suit our industries varying work hours.

Counselling offices are located in Hobart, Burnie, Devonport and Launceston. Sessions can be held face-to-face, via phone or online to suit your individual preferences.

To make a booking or enquiry, please contact the Positive Solutions toll-free number on **1800 064 039** or email admin@positivesolutions.com.au

STEWARDS SEGMENT

HORSES ARRIVING AND LEAVING THE COURSE

Trainers with horses competing in Race 1 are to arrive on course no later than 1 hour prior to the scheduled start time. Trainers with horses competing in Races 2 onwards are to arrive on course no later than 1.5 hours prior to the scheduled start time of the race they are competing in. Horses must remain on course for a minimum of 30 minutes prior to leaving following competing in a race.

BARRIER CERTIFICATE AUTHORISATION

1. In accordance with Local Rule 8.3, an unraced horse must not be permitted to start until it has been issued with a barrier certificate after performing satisfactorily in a trial, over at least 600 metres, with at least two other horses.

LR 8.3 Unraced horses must have a barrier certificate obtained in an official trial prior to the closing of acceptances.

2. A horse will only be issued with a barrier certificate if it is seen to be tractable when entering, standing in and jumping away from the barriers.

3. A horse will only be issued with a barrier certificate if:

- It is ridden into the barriers with minimal assistance (one attendant with a lead on the bridle and a gentle guide behind)
- It stands without assistance with all four feet on the ground
- It jumps out in a satisfactory manner

4. A horse will not be issued with a barrier certificate if:

- It has to be 'lifted' into the barriers
- It is fractious or laying to excess on the side of the stall

- It rears or attempts to burrow under the front gates

- It stands flat footed and fails to jump away (2 lengths)

- It jumps out and starts to buck

- It jumps out and does a left or right hand turn

RACEDAY PLATING AND REPLATING POLICY

Replating – Any required re-plate and/or repair should be carried out as soon as possible and the horse must then be examined by the veterinary surgeon prior to racing. If a replacement/repair is required such work should be notified to stewards upon completion.

Unable to replace or repair – If a plate is unable to be replaced or repaired the following should take place:

- (1) Front standard plate** – A horse will not be permitted to start under any circumstances with either one plate or bare foot.
- (2) Rear standard plate** – A horse will not start with only one rear plate. The following options will be undertaken:
 - a) The trainer will be contacted to ask permission for the removal of the opposite plate to allow the horse to race barefoot.
 - b) If the trainer cannot be contacted the jockey will be asked for permission to remove the opposite plate and allow the horse to race barefoot.
 - c) If neither party grants permission, the horse will be scratched

RETIRING YOUR THOROUGHBRED

Notification forms

Under the Australian Rules of Racing, a notification form must be lodged when a decision has been made to retire a horse or to not commence racing a horse (AR 51) or upon the death of a horse (AR 52). Penalties may apply if failing to comply with notification obligations under the rules.

Completed forms to be lodged with RA:

Online at www.myhorseracing.horse

In paper form by posting to:
Racing Australia Service Centre,
Level 1, 400 Epsom Road, Flemington VIC 3031

Email (subject: Retired Racehorse) to: customerservice@racingaustralia.horse
Racing Australia Customer Service Hotline: 1800 138 704

Notification forms for retirement of horses should be completed

Named horse within 1 month of the decision to retire the horse from racing or within 24 hours of the horse's death.

Unnamed horse within 1 month of the decision to not commence racing the horse, or within 24 hours of the horse's death.

REHOMING A RETIRED THOROUGHBRED

If you rehome your retired thoroughbred, please encourage the new owners to explore opportunities for support through the Off The Track Tasmania program.

Subsidised Lessons Program

Tailored support across a range of areas including horse care and husbandry, nutrition, behaviour, groundwork and ridden components.

Hygain Nutritional Support

Support for new owners to better manage and understand the horse's transition from a full race feeding program into a new regime.

Cavalor Equicare Products

Providing valuable product knowledge and Cavalor samples that will help support the health and wellbeing of OTT's transitioning into their new post-racing careers.

THOROUGHBRED BREEDING INCENTIVE SCHEME

The TasBred Incentive Scheme commenced in the 2018/19 Racing Season and replaces the tasBonus Incentive Scheme. \$1.54M in bonuses will be on offer to eligible 2, 3 & 4YO horses, distributed across 72* races.

ELIGIBILITY

Yearlings that qualify for the scheme are:

- A) **TASMANIAN SIRE**
- B) **INTERSTATE SIRE (BREEDBACK)** (mare must be Tasmanian owned and was served by a stallion which stood in Tasmania during the following year's breeding season. – based on Australia Stud Book)
- C) **TASMANIAN REARED*** (the foal and dam must have resided in Tasmania for at least 6 continuous months between when the foal was born and the foals first birthday as listed by the Australian Stud Book).
* Supporting documentation Required.

BONUSES

Offered on 72* Selected Races:

- All 2YO & 3YO Maiden races
- Selected 2YO, 3YO & 4YO Handicaps under \$50,000 prizemoney
- Selected 2YO/3YO/4YO & Up Maiden Races
- Selected Maiden / Class 1 Races

* Every endeavour is taken to schedule 72 TASBRED eligible races per racing season

COSTS

TASMANIAN SIRE \$550 (GST INC)

INTERSTATE BRED \$1,100 (GST INC)

TASMANIAN REARED \$1,650 (GST INC)

A one off nomination fee is paid to Tasracing when the horse is a yearling. The horse then becomes eligible for a bonus whilst it is a 2, 3 or 4 year old, for a win in any specified **TASBRED** nominated race.

BONUS PAYMENTS

Winning Bonus payments are restricted to owners and breeders only, as described in the table below:

NOMINATOR DETAILS	BREEDER	OWNER	TRAINER	JOCKEY
Payment for a Breeder Nominated Horse (excl GST)	\$4,000	\$16,000	\$1,000	\$800*
Payment for an Owner Nominated Horse (excl GST)	\$0	\$16,000	\$1,000	\$800*

* \$500 paid to Jockey Welfare Fund

Terms & conditions available at www.tasracingcorporate.com.au
